

News Release

FOR IMMEDIATE RELEASE

***Rosé Soirée* presents *SoirIN*:
A Gala, fine dining and musical event, at home in support of
St. Boniface Hospital on May 28**

WINNIPEG – April 30, 2020 – Will it be black ties and ball gowns, or sweatpants and slippers?

On Thursday, May 28, the choice is yours while you savour cuisine and enjoy all-Canadian entertainment from the comfort of your home, all in support of research and patient care at St. Boniface Hospital.

St. Boniface Hospital Foundation's inaugural Rosé Soirée in 2019 was a fundraiser like none before – a gala evening under the stars at the historic St. Boniface Cathedral Ruins, complete with gourmet dishes, signature drinks, and captivating entertainment.

This year, the signature event moves to an equally exclusive venue - your home. ***SoirIN*** features a three-course meal and signature pairings from 529 Wellington and Piazza De Nardi, all arriving fresh at your door.

“Manitobans are generous in any setting, with any dress code,” says Vince Barletta, President and CEO, St. Boniface Hospital Foundation. “Attendees can kick back and enjoy the night on their terms, knowing their ticket purchase has provided much-needed support to St. Boniface Hospital.”

Louis Trepel, St. Boniface Hospital Foundation Board Member and ***SoirIN*** Co-Chair with fellow Board Members, Doug Stephen and Tom De Nardi, says the evening event will feature a wide range of top-flight Canadian talent.

“We’re thrilled with the lineup coming together - Call it a curated mix of up and comers, local favourites, and well-established acts. These will be one-time only, exclusive performances for this event.”

Gala tickets are \$200 each, including dinner and concert. Purchasers will receive a secure link to view the performances online. Tickets are available at stbhf.ca and by calling 204-237-2067.

About the St. Boniface Hospital Foundation

St. Boniface Hospital Foundation was founded in 1971 and is the primary fundraising organization for St. Boniface Hospital. The Foundation is dedicated to making possible the many innovations in health research and patient care taking place at the Hospital. St. Boniface Hospital is a leader in patient care excellence, delivered with genuine compassion. Research at St. Boniface Hospital is where medical discoveries are made; science is translated into practices that improve human health; and today's best minds are shaping tomorrow's advances in health care.
